

Large Wall Mounted Locking Cabinet

Overview

The Large Wall Mounted Locking Cabinet is the ideal locking cabinet for medication security in patient rooms where you have limited flat surfaces to mount the locking cabinet or if you prefer the convenience of a wall-mounted locking cabinet.

Features

- Electronic Keypad Lock (requires 2-AAA batteries included) and has a low battery alarm feature.
- Safety backup key override lock comes standard on all units and is supplied with two metal keys.
- Standard with two ¼-20 flat head screw mounting holes in the back panel for a permanent mount (Screws not included).
- White PVC construction cabinet.
- Approximate dimensions: 16" W x 18" H x 8" D
- Approximate weight: 16 lbs.
